

Where did you go for university and what did you study?

I graduated from the Concordia University in 2014 with a Bachelor of Commerce. During my 4 years at Concordia, I had 3 internships, one at a non-profit in Montreal, a pharmaceutical company in Toronto and an advertising agency in Paris.

**What did you do after graduation from university? Graduate school or full time work?
Where are you now?**

I am currently working as a consultant at IBM Digital Branch in Toronto.

Do you have a favorite memory or story about your time at LFT that you would like to share with us?

I remember the day when the writer Amélie Nothomb came to present and discussed her work with us. It was very interesting to see the discipline she had. She would wake up at 4am and write for 4 hours every morning, because according to her, this is the best time to write in the day!

What advice would you give to students who are about to graduate from LFT ?

The 3 tips that I will give to students who are about to graduate from LFT:

- Stay curious, travel and be open to meeting lots of different people during your post-LFT journey.
- Make the most of what university has to offer: co-op, exchange programs, associations, sports teams, competitions, etc.
- There is no perfect route, all roads lead to Rome when we always try to pursue what interests us.
